

Production Helper

This role will assist Planner, Mechanics and Machinists with day-to-day activities, parts and raw material staging, consumable inventory stocking and replenishment and additional daily tasks as necessary in support of the Assembly and Machine Shops

Duties & Responsibilities:

- Work directly with Production Planner to ensure detail parts and raw material are staged for upcoming assembly builds and machining jobs.
- Monitor and update all certified raw material within the Machine Shop.
- Stage sub-assemblies for next higher assembly builds.
- Set up and stage tools for upcoming jobs.
- Perform benching (deburring) and cleaning of finish machined parts.
- Assist in part marking operations.
- Assist mechanics and machinists with end of day cleanup activities.
- Additional tasks as needed.

Qualifications & Experience:

- High school diploma or equivalency, valid driver's license.
- Good written and oral comprehension and communication skills.
- Basic computer skills.
- Ability to work steadily without supervision.
- Good attention to detail
- Have the following qualities: good attitude, strong work ethic, punctuality, honesty, team player, work alone or with others, positive influence, detail orientated, problem solving skills.
