

PRECISION AIRCRAFT SOLUTIONS

WHERE CHANGE TAKES FLIGHT

Planner / Buyer

Summary:

Precision Aircraft Solutions Consolidated is an international leader in the design and execution of aircraft cargo conversions and special mission modifications, component and mod kit manufacturing, STC and AMOC certification, and continued airworthiness support. The dedication to our customers and creative innovation by our employees is evidenced by our core values of ownership, motivation, respect, honesty, and adaptability.

The Precision Aircraft Solutions team is seeking to hire an experienced Materials Planner/Buyer of large commercial aircraft parts. Ideally, this candidate would have experience in a manufacturing environment with some exposure to project management tasks.

Benefits include two health insurance options (one 100% employer paid for the employee) and PTO packages pro-rated from date of hire; benefits are available first of the month following 30 days of regular full-time continuous employment.)

To learn more about who we are and what we do, please see our website at www.precisionaircraft.com

Duties and responsibilities:

- Support RFQ process to initiate supplier contact, evaluate supplier quotes, and make recommendations regarding purchase quantity, pricing, and technical ability to meet company objectives.
- Maintain positive supplier relations and manage supplier performance including quality, delivery, and continuous improvement activities.
- Manage change requests through proactive communications with suppliers and prioritize work flow to meet critical requirements. Work to understand and resolve root cause for changes to minimize schedule volatility.
- Negotiate and manage pricing and quality discrepancies along with returned material processes as necessary.
- Participate in the development of the company's supply chain strategies and continuous improvement efforts.
- Work creatively with other functions including quality, engineering, finance, customer support, and logistics as required to solve problems and assure supply chain processes are optimized.
- Key performance objectives include timely placement of purchase orders, on time delivery, supplier quality, inventory, material cost, and personal growth plan.

PRECISION AIRCRAFT SOLUTIONS
